

Good afternoon, Chair Young and
Committee Members,

I am Allie Hayes. I am 25 years old and
consider myself smart, yet a bad person
scared me into doing something I did not
want to do. Passing these bills will
protect me, my Friends and others with
disabilities. I am the voice of many!

I appreciate the time you give working
on this Committee. I know Michigan is
safer because of YOU. Please vote
immediately, so I can feel better about
being on my computer and so bad
people will not want to target people
like me any more.

Thank you for listening to me.
